Dance Extra Team

In November Mr. Crockett will begin teaching our Dance Extra Team classes. They will take place on Monday mornings from 8-8:45 (before school). The class will continue through the month of March where we will have the dance assembly and an evening performance the Friday after we get back from spring break. The purpose of this class will teach children rhythm, coordination, and an appreciation of music from around the world. Together we will learn how to work as a group in both circle dances and block formation dances. Students will have the experience of dancing with partners. This teaches skills of how to lead and follow, which in turn teaches trust between one another.

Students will be learning dances from around the world, such as: Germany, Bavaria, France, Africa, Ukraine, England, America and others. They will be performing with Mr. Crockett's class, who has been working on a number of dances to perform at our dance assembly. The dance assembly and evening performance will take place tentatively on Friday April 15.

If you are interested in having your student participate in this fun and exciting activity, please sign below and **return it to your teacher**, who will return it to Mr. C.
