

Science EXTRA!

We are excited to offer Science EXTRA this year at Spanish Oaks! Ms. Mellor will be teaching this class for students in grades 1-3. Miss McKendrick will be teaching grades 4-6 . **The lessons being taught may be the same lessons that were taught last year in Science Extra, so if your child was in Science Extra last year they may not want to attend again.** The class will focus on the scientific method, where we will make hypotheses and perform experiments to find answers. Some of the experiments we will do will include: reactions with sodium chloride, milk-fats, dish soap, yeast, sodium bicarbonate, lemon juice, etc.

The dates and times for our class will be: **Wednesday afternoons (once a week)** from 3:15 p.m.- 4:15 p.m., starting 2/5/20 and running through 3/11/20 (six sessions total). Classes will be held in Room 26 (grades 1-3), and Room 14 (grades 4-6). Students must be picked up promptly at 4:15 p.m.

This class will be able to accommodate 20 students per teacher. **We will collect all forms in the office until February 3rd. Students will then be *randomly chosen* and you will be notified by February 4th if your child has been selected to participate.**

Student Name: _____ Grade: _____

Teacher: _____

My Child Can Attend ALL 6 Sessions: Yes No

Parent/Guardian Name: _____

Parent/Guardian Email: _____

Parent/Guardian Phone: _____

I give consent for my student to participate in Science EXTRA. (please sign)
